

2020 NATIONAL FOUNDATION COMMUNITY ACTIVITY

Anthem Foundation and Anthem's 70,000 associates have deep roots in the communities where we live and work. Armed with our mission of creating a healthier generation of Americans, in 2020, we came together and found new ways to make a difference for those in need. Through partnerships with nonprofit organizations that are addressing not only the physical and mental challenges of a major pandemic, but also helping eliminate health disparities, economic insecurity and racial inequity, our Foundation committed \$50 million to support the health of our communities.
